Development Constraints

The composite map was generated by "adding" the following development constraints: Slope 0-10% (1), 11-20% (2), 21-30% (3), >30% (4); Road Proximity 0-100m (1), 101-200m (2), 201-400m (3), >400m (4); Utility Proximity 0-100m (1), 101-200m (2), 201-400m (3), >400m (4); Floodplains out of floodplain (0), in floodplain (4); Relative Wildfire Hazard (1-4); Relative Erosion Hazard (1-4); Solar Incidence areas of least solar exposure (4) - areas with most solar exposure (1).
